FRIDAY, DEC. 6

CANADA'S GIFT.

There was a great demonstration of loyalty and patriotism in the House of Commons yesterday afternoon, when Mr. Borden announced the Tory naval policy in helping Great Britain to maintain the safety of the Empire. His announcement did not come as a surprise, as it was generally understood that thirty or forty millions for Dreadnoughts would be the proposition of the Government, and that there would be a strong to the gift, the condition being that, if at any time Canada should build a navy of her own, she should be permitted to have the ships returned to Canadian waters. There is also the condition, in the distance, attached to the gift that Canada shall get in return a voice in the shaping of the policy of the Empire. So there is a good deal of backstopping in this "spontaneous" action of the Dominion Government. One thing made plain was that there was no immediate "emergency". The only emergency was that other countries are building big navies, and Britain must do likewise and consequently Canada is standing in helping to keep Great Britain ahead in the race would be acceptable. There is no objection to that. Canada is generally held that this country is naturally bound to do her share in the defence of her own shores and those of the Empire. The people are one to the necessity and desirability of Canada doing her part in the matter of Empire defence.

As was also expected, Mr. Borden has completely changed his views as to the kind of assistance Canada should give since Sir Wilfrid Laurier's policy to build a Canadian navy was introduced into the House. Then Mr. Borden was opposed with the Liberal plan that he asked that the word "spontaneous" be put in the motion, and spoke as follows: "So far as my right hon. friend, the Prime Minister, to-day outlined the lines of naval defence of this country, an entirely at my own. I am an entirely of opinion in the first place that the proper line upon which we should proceed in that regard, is the line of having a Canadian naval force of our own. I entirely believe in that."

At Halifax, on October 16th, 1908, Mr. Borden also said, "one governing principle at least should control, namely, that out of our own materials, by our own labor, and by the instructed skill of our own people, any necessary provision for our naval defence should be made. It may be as reasonably possible, political exigencies in the shape of Mr. Borden and the Nationalists, compelled Mr. Borden to jettison his ideas about a Canadian navy, and he ceased about for some other plan, that might have both wings of his party, and he chose as a way out of his dilemma the "emergency" contribution. Yesterday, he said:

There have been proposals that we should build up a great naval organization in Canada. In my humble opinion nothing of an effective character could be built up in this country within a quarter or perhaps half a century. Even then it would be a poor and weak substitute for the already existing navy, which the Empire already possesses, and which has been evolved and built up by centuries of the most searching experience and the highest endeavor. In these latter days, when we should undertake the hazardous and costly experiment of building up a naval organization especially restricted to Canada, when upon just and self-respecting terms we can take such part as we desire in naval defence through the existing naval organizations of the Empire, and in that way can fully and effectively avail ourselves of the men and resources at the command of Canada.

"Here we believe is where the Liberals and Mr. Borden will meet. Mr. Borden's Three Dreadnoughts are only a beginning. As time passes other three Dreadnoughts will have to be presented to Britain, and just to keep at Canada, but no navy of her own will these contributions have to be continued. How long will Canada stand that? If the Dominion is worth her salt, she will take steps to protect her own waters. She will never be content to "flower fight by proxy and to hire money into to do her fighting. Canada will have a navy of her own built, manned and maintained by Canadians. From the emergency gift is not satisfactory, either here or in Britain. The London Daily News said this morning: "Being additional to an already adequate programme, it means that the taxpayers of this country will have to man and maintain three superfluous battleships. That is just what it means. Canada has other good use for her money. It is not enough to give these three battleships and stop there. Canada should not only pay for the building of these, but she should man and maintain them for all time, and nothing less will satisfy the people. We, Canada, to consent to that, and that proceeded with the building of her own navy, she might as well stop at that. It is a time when she should be returned to her when found necessary."

GORDON'S NAIDEN SPEECH.

Mr. Gordon Wilson, our "Wandering member," made his maiden speech in the House of Commons yesterday, and it took about half a page of "Herald" to record it. He said, and with much eloquence, that the House should be returned to her when found necessary. Mr. Wilson's new father-in-law is a great help to him.

The Secret of Charm at Seventy

"She had three husbands," a woman said today to the club women who had been seated upon the appearance of the noted speaker, scheduled for the afternoon. "The former looked toward the platform with interest. A woman who had had three husbands must either have great charm or great determination. Without doubt: this one had great charm. She may also have had the determination. But if so, she was clever enough to conceal it. But of the latter there was no doubt."

She was a woman in her seventies. But except for her snow-white hair, there was little suggestion of age about her. And even her hair, though its color belated the passing of the years, gave no other indication of the flight of time. It was softly waved, arranged most becomingly, and crowned her head as though it had been of her golden hair. Her eyes were clear blue, her complexion fresh, her figure straight. Her dress was a soft blue, with a touch of the light blue at the throat. She gave the impression of abundant life. One knew it was charm and not determination that had captured the three husbands.

And then she began to speak, and she held her audience for an hour with an interesting, forthright, illuminating and inspiring talk of one of the vital topics of the day that affected women. She was through, one felt that she not only had the personal charm, but she had a forceful personality that could add the interest her charm had aroused. Her three husbands must have enjoyed her life with her to the full. But what was, as she told them, any woman can be if she wishes to. Her conclusion and her figure speak for themselves.

He spoke of Sir Wilfrid Laurier as a "discredited opportunist." Now, common sense, if not common civility, should have prevented a novice like Mr. Wilson from applying such an epithet to the honored leader of the Opposition. He also made the mistake of running down Mr. Lemieux, stating that it was known all over the Province of Quebec that at one time he was armed with Erastus Wyman and some other gentlemen, who were anxious to have Canada annexed? That is where Mr. Wilson tripped, for Mr. Lemieux quipped, "I was not born then." And Gordie laid to sleep and hope. His speech was largely taken up with abuse of Mr. W. O. Sealey, the former member for the county, yet he managed to wrangle away upon almost every public question within sight. Reciprocity, the navy, hydro-electric, rural mail delivery and any old thing that came along was pressed into service to help make his speech. Gordie, we notice, is still bent upon saving the Empire. He declared that emergency or no emergency, he was prepared to let his share towards the British Empire. As a result of the defeat of reciprocity, Mr. Wilson instanced the case of a New York firm which he said, were to establish a branch plant in St. Catharines. The manufacturer had been good and Mr. Wilson did not explain how the defeat of reciprocity in material products affected the price of hardware. He also put forward the issue of the National Policy that brought the American factories to Hamilton, forgetting just to tell the House why no factories came here under the Tory National Policy.

Mr. Wilson would investigate he might find that the two things which brought these factories here were, first, the Northwest; second, the ability to manufacture more cheaply here, and thus be better able to compete in the markets of the world for foreign trade. When the Tories were in power there was little if any interest in the Northwest, and agricultural land was not so cheap. It was a boring speech. The Liberals made it a hive of industry, here the coming of the factories to Hamilton.

The member for Westmeath, who made the speech, as he called it, but it was neither maidenly nor modest, with a peroration on the British navy—saving the empire, a subject which he is quite at home in. His words dropping into poetry, thus:

To our British institutions
And traditions "Hold us fast"
Follow close to old traditions
That the empire shall with power
At our feet Canada shall

she had expressed self-control in the matter of dress. She had not indulged herself in frivolous looks. She had not worn "fashions" that had caught her eye, but she had kept it healthy and properly developed. Her hair and her dress meant that she was a woman of her time. As the years came, she did not grow fat and portly, she remained slim, and her figure was as dainty as a girl of sixteen. And her address meant that she was a woman of her time. She did not let herself become dull and uninteresting. She had a mind and she used it.

And what woman, if she developed herself in this way, but would be charming? She might see perhaps secure the three husbands, for there might not be enough to go round in this triple fashion. And their despatch might also be questioned by some. But the desire of such charm and such personality would be questioned by none. Most of us would like to have this quality. But we do not want them enough to make the effort to get them. That's the trouble with us. We may not like to live to ourselves. We may not like to live to ourselves. We may not like to live to ourselves. We may not like to live to ourselves.

A strike of 60,000 New York tailors is threatened in January, according to the Industrial Workers of the World. Has the I. W. U. captured the Garment Workers' Union?

Gordon Wilson has a lot to say about Mr. Sealey in his "maiden" speech in Parliament. But Mr. Sealey did more for his constituents while he was in the House than Mr. Smith did. And so far, Mr. Wilson has done nothing.

The new schedule of prices of the Hydro-Electric Commission makes Toronto rate 415, while Hamilton's remains at 416. Toronto will now be able to offer factories a cheaper power rate than can Hamilton.

The Works Committee decided, last night in favor of Mr. Macdonald's larger overtime award, but postponed the submission of a by-law to the people for the same until another year. The Times says that the House of Commons has passed the 800,000 scheme, as the former scheme would only be a partial relief for the civil.

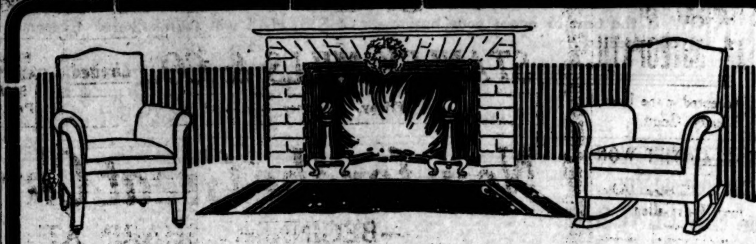

Sir Charles Belfrage, it is announced by cable this morning, is opposed to Mr. Borden's emergency contribution by way of strengthening the British navy. He believes that Canada should rather protect her own trade routes, with strong naval bases, mines—torpedo boats, destroyers and cruisers. "In short," he reports the "Laurier policy."

The Cleveland Leader says that "As Canada prospers Canadian purchases from the United States" increase. It is a healthy warning. The rapid development of Canadian resources has been a factor in the expansion of American foreign trade too vital to be overlooked. The "United States" grows the larger, the profits the country, and count upon from Canadian trade. This is spite of high tariffs on both sides.

The member for Westmeath, who made the speech, as he called it, but it was neither maidenly nor modest, with a peroration on the British navy—saving the empire, a subject which he is quite at home in. His words dropping into poetry, thus:

To our British institutions
And traditions "Hold us fast"
Follow close to old traditions

A NICE GOVERNOR

South Carolina's Head Disgraces His State.

(By Times Special Wire.)

Highland, W. Va., Dec. 6.—Many women in attendance on the governor's conference yesterday hurriedly left the hall when Governor Cole B. House, of South Carolina, for the second time defending his doctrine of lynching negroes guilty of criminal assault without a trial, insisted. "To hell with the constitution," he said.

When women, some of them wives and daughters of Governors, have been here before, they go to the Christmas.

HAMILTON CANADA

BRITISH MEMORANDUM

The Naval Situation Set Forth By the British Admiralty.

Ottawa, Dec. 5.—The memorandum from the British Admiralty, read by Premier Borden in the course of his address yesterday, was forwarded to H. H. Mr. Harcourt, Colonial Secretary. The latter says:

"This document has been prepared by the Admiralty, on the instructions of His Majesty's Government, in compliance with the request of Mr. Borden, with a view to presentation to the Dominion Parliament if and when the Dominion Ministers deem it necessary."

The Admiralty memorandum is then given as follows:

(1) The Prime Minister of the Dominion of Canada has invited His Majesty's Government, through the Board of Admiralty, to prepare a statement of the present and immediately prospective requirements of the naval defence of the Empire for presentation to the Dominion Parliament.

The Lords Commissioners of the Admiralty are prepared to comply with the request in a form which can be made public, in the official communications and conversations which have passed between the Admiralty and the Dominion Government, in the recent visit to the United Kingdom.

The Admiralty set the greatest store by the important material, and still more important moral assistance which it is within the power of Canada to give to maintaining British naval supremacy on the high seas, but they think it necessary to disclaim any intention, however indirect, of putting pressure upon Canadian public opinion, or of seeking to influence the Dominion Parliament in a decision which clearly belongs solely to Canada.

The Admiralty, therefore, continue themselves in this statement explanatory by facts, and it is for the Dominion Government and Parliament to draw their own conclusions therefrom.

(2) The power of the British, to maintain the superiority on the sea, which is essential to its national safety, must ultimately rest, not from time to time, but for ever, on the naval forces of the world, and such a position does not imply any intention of putting pressure upon Canadian public opinion, or of seeking to influence the Dominion Parliament in a decision which clearly belongs solely to Canada.

(3) The power of the British, to maintain the superiority on the sea, which is essential to its national safety, must ultimately rest, not from time to time, but for ever, on the naval forces of the world, and such a position does not imply any intention of putting pressure upon Canadian public opinion, or of seeking to influence the Dominion Parliament in a decision which clearly belongs solely to Canada.

(4) The power of the British, to maintain the superiority on the sea, which is essential to its national safety, must ultimately rest, not from time to time, but for ever, on the naval forces of the world, and such a position does not imply any intention of putting pressure upon Canadian public opinion, or of seeking to influence the Dominion Parliament in a decision which clearly belongs solely to Canada.

(5) The power of the British, to maintain the superiority on the sea, which is essential to its national safety, must ultimately rest, not from time to time, but for ever, on the naval forces of the world, and such a position does not imply any intention of putting pressure upon Canadian public opinion, or of seeking to influence the Dominion Parliament in a decision which clearly belongs solely to Canada.

and make a total in 1920 of 101,000. The new construction under the law provides the building of three additional battle ships, and the total number of ships in 1916 and 1917 will be 101,000. The date of the third battle ship has not been fixed. It has been proposed to build the third battle ship in 1917. The cost of these three ships is estimated at £10,000,000, which would be paid over the next five years.

(6) The effect of the new German naval law is to produce a remarkable expansion of strength and readiness. The number of battleships and large armored cruisers will be increased constantly ready and in full commission will be raised by the law from twenty-one to twenty-five. The number of light cruisers will be increased from twelve to sixteen, and the number of destroyers from twenty to twenty-five.

(7) The new fleet will be in the beginning include twenty battleships and large cruisers of the older type, but gradually as new vessels are built the fighting power of the fleet will rise until in the end it will consist completely of modern vessels.

(8) The complete organization of the German fleet, as described by the latest law, will be five battle squadrons and a fleet of flagships, comprising forty-one battleships in all, each equipped with a battle or armored cruiser squadron, complete with small cruisers and auxiliaries, and a large number of destroyers and submarines.

(9) The fleet will be in the beginning include twenty battleships and large cruisers of the older type, but gradually as new vessels are built the fighting power of the fleet will rise until in the end it will consist completely of modern vessels.

(10) The complete organization of the German fleet, as described by the latest law, will be five battle squadrons and a fleet of flagships, comprising forty-one battleships in all, each equipped with a battle or armored cruiser squadron, complete with small cruisers and auxiliaries, and a large number of destroyers and submarines.

GAGE & BUFFALO

As Seen By New York Financial Times.

Canadian Money In U.S. Real Estate.

The Mercantile and Financial Times of New York has, in its latest issue, a review of Mr. A. Walter Gage's visit to Buffalo. The Times says:

Just how attractive this section of Buffalo has become may be shown when it is noted that it has been selected for development by one of the most progressive and important real estate operators on the continent. Within a few days the company, which is headed by Mr. Walter Gage and other Canadian capitalists, has purchased the first considerable tract of land in the Buffalo area, which comprises some 100 acres of unimproved land between Main Street and Bailey Avenue, and will be developed into one of the finest residential districts in Buffalo.

The property has a frontage of 1,000 feet on Main Street and extends back 100 feet to the city limits. It is a valuable tract, and its development will be a great benefit to the city.

Hamilton Will Send Very Strong Team to Toronto

Final Selection Is Made For All-Star Team to Represent Canada's Greatest Football City.

The team that will represent All-Hamilton against All-Toronto in the inter-city match at Toronto to-morrow afternoon has been decided upon by Managers Toot and Marriott and will be as follows:

Backs—Becker or Carr, Manson, McKelvie.
Quarter—Awrey, Captain.
Halfbacks—Spence, McCarthy, Neville.

Inside wings—Wilson, Craig.
Middle wings—Bleakley, Ishler.
Outside wings—Plannery, Glasford.
Flying wing—Gatenby.

Spares—Pfeiffer, Pickley, Burton, Stuart, Fisher, Thompson, Pitt, Patrick.

Twenty-one players will be taken to Toronto and it is likely that all will be used at some time or other during the contest, though the team will step on the field as picked above. The team will be composed of eight Tiger and six Allert players. It looks like the strongest aggregation that has stepped on a Canadian gridiron in many years. While there is some sterling football material in the Queen City the manager of their all-star team will have to make some fine selecting to get together a team that will be able to provide even-odds exercise for the Hamilton bunch. The Hamilton line will be wonderfully strong and if Wilson and Craig do not tear that Toronto defence to pieces it will be a wonder. On the other hand Ishler, Bleakley, Wilson and Craig should be able to hold any of the Toronto line players with comparative ease. The Hamilton team will step on the field without having had so much as one practice together, and it is not likely that they will give much of an exhibition of team play. However, the players are all in good condition and the only difficulty will be the signals. As the majority of the players are Tigers, the Tiger signals will be used.

While the Hamilton back division is superior to that which the Toronto team will use the local line will be about a hundred per cent stronger than anything that Toronto can put on the field. If Toronto beats this team luck will have to play a remarkable part in the game.

The opening of the new H.A.A.A. club quarters, corner of Park and King streets, took place last evening under the most auspicious circumstances. There were a large number of Rugby players and other athletes on hand and all were very enthusiastic over their new quarters.

The first business of the evening was election of a house committee and it resulted as follows:

W. Monk, Chairman; Dr. McCann, R. Thompson, H. Glasford, A. Goss, J. McKelvie, E. Dixon, S. Manson, R. Kerr.

Billy Monk took the chair after election, and in a short speech outlined the object of the club and the rules that would govern the conduct of its members. Short speeches were made by R. K. Hope, R. A. Thompson, B. L. Simpson, Dr. W. G. Thompson.

The rooms are well furnished, and should prove ideal quarters for the athletes. During the evening a musical programme was contributed by Walter Howell and Phil Bodie.

Although the cutting down of the number of players on football teams from fourteen to twelve has been decided upon, it will remain for the Quebec Union to take the first step in the direction. The annual meeting of the Union, which will be held to-morrow night at Montreal, when this abolition of the three-man scrimmage and the substitution of a snap-back, as in the American game.

The Borkes and Eskines will play off their game, as a curtain raiser, at the American game.

The inter-city championship contest at the H. A. A. at one o'clock to-morrow, which teams have been playing consistent ball, and on neutral ground it will be hard to say who will win.

If the Borkes win we will have three City Rugby championships to their credit. Newport and Beatty will officiate.

In view of the fact that the Tigers walked the Alerts, it will not be a difficult task to select an all-Hamilton team for Saturday's struggle here. And send down the jungle aggression in fact; they would be representative enough Toronto News.

Sore because of the Argos' defeat, the Toronto Telegram hands the following analysis:

Hamilton Alerts are in a rather peculiar position. They are a suspended team of the O. R. F. U., and yet champions of the Canadian Union.

For whatever or not the football team they certainly are not the most agreeable people to associate with. And certain people who sympathized with them in their troubles with Toronto and the O. R. F. U., later announced that the Alerts would be a mighty small lot to the game if they got out entirely.

The enthusiasm with which the crack football players of Toronto and Hamilton are taking up the inter-city championship game on Saturday promises a great one.

Hamilton, Toronto has been playing in sight to beat all Canada, and if it is properly picked and played, the man on whom depends the success of the team, which will be held to-morrow night at Montreal, when this abolition of the three-man scrimmage and the substitution of a snap-back, as in the American game.

The Borkes and Eskines will play off their game, as a curtain raiser, at the American game.

The Big Shoot at St. Thomas

Live Bird Events Made Up 4th Day's Programme.

St. Thomas, Dec. 6.—This was the fourth day of the St. Thomas (Club) big shoot, and more than usual interest was displayed by the participants for the reason that all the events were live birds.

The first event—ten live birds—was won by J. E. McGilchrist and F. S. Wright killed ten, while Joe Coffey, G. Vance, S. J. Taylor, J. F. Galt, and J. H. Bates, R. H. Burns, J. E. Cantelon, W. Ridley, J. E. Jennings, F. W. Scott, S. J. Taylor, and W. W. Scott each missed one bird.

Event No. 2, ten live birds—Nine shooters had perfect scores—H. D. Bates, W. Scott, J. E. Cantelon, F. S. Wright, J. Coffey, J. Taylor, J. W. Scott, S. J. Taylor, and J. W. Scott.

The big nose of the entire shoot was the Grand International Handicap, 8000 guaranteed cash. This event had many entries, and some of the shooters had very little chance. However, it was only about half over when darkness set in, and the event was finished, which is the last day of the tournament.

First event, ten live birds—Joe Vance, J. E. McGilchrist, F. S. Wright, J. Coffey, J. Taylor, J. W. Scott, S. J. Taylor, and J. W. Scott.

Event No. 2, ten live birds—Nine shooters had perfect scores—H. D. Bates, W. Scott, J. E. Cantelon, F. S. Wright, J. Coffey, J. Taylor, J. W. Scott, S. J. Taylor, and J. W. Scott.

HARD ON CONTROLLERS ALLAN AND BAILEY

To-morrow I am paying \$5 and over votes to help me build my business to a quarter of a million, as I can be Mayor of Hamilton in 1913. Just read and see how you have to go about it to get this money.

Two Tables 9 x 4 Feet Piled Up With \$15 and \$16.50 Overcoats—Chesterfield, Convertible, Plain and Belted Backs, To-morrow \$9.75

We want these tables by Tuesday morning to open up our Christmas furnishing. Men's solid Worsted Suits, \$18.50 and \$20.00 lines \$14.75

We want the space by Tuesday these suits occupy. It is asking a lot to expect 200 men to respond, but the 200 that do will be well paid for reading this advertisement.

About 15 of these Coppley, Noyes & Randall \$30 silk lined \$22.50 Overcoat samples for \$10.00. We could use the space occupied by 112 Chesterfield, \$18.50 Suits in eleven without cutting, a \$25 value for \$10.00

This is the regular "room-making" time around this store. 184 pairs of Men's Trousers made out of suit ends and short ends in overcoats, running in from 30 cent up to 44, many of them worth \$5 a pair, all on a table at \$2.50. Other specials in Pants at \$2, \$3, \$4 and \$5, with a saving of from \$1-up on every pair.

In our Boys' Overcoat and Suit Department which is one of the largest in Hamilton, an Ingersoll watch, a good timekeeper, is given free with every suit or overcoat at \$5 and over.

FRILLS DON'T BRING ANY BABY SMILES—IT'S COMFORT THAT MAKES THE SON SHINE.

(By Elsie L. Burkhardt)
I believe most mothers make the mistake of dressing their babies too warmly in winter. Great heat is not so much to be desired for winter clothing as in summer conditions.

For the normal baby in winter a long sleeved flannel shirt, diaper, a pair of long stockings of wool pinned to the diaper, a flannel petticoat made like a slip without sleeves and a slip are the necessities for day wear.

At night he can and take off everything that has been worn by the baby in the day time. A great many mothers do not seem to understand this. They think that the baby in night dress or one made of flannel, a diaper and stockings are all that is needed for night wear. At night, many mothers run a string around the button of the night dress and tie it to the garter.

A divided baby wears a flannel night dress and stockings.

When you have a baby in the night dress that it has had its feeding at least one hour before it is a good thing to tie the string around the button of the night dress and dressed just in time for its next feeding. It will then go to sleep for a couple of hours.

Be very careful when you dress it that there are no drafts. The room should be warm and the baby should make its morning toilet.

Don't use fancy trills upon your baby's dress; make them of flannel. There is no need to have enough of them so that you can have a clean, unsoiled outfit every day. A pair of long stockings of wool slips perfectly plain, eight flannel petticoats, eight night flannel dresses, eight night flannel pairs of stockings can be purchased for about \$7 provided you make the night dress and stockings.

smallish as to leave it up and to the stormers. The latter, however, are situated so that you can let your baby sleep out doors put over its head a sheet, and if the weather is colder down flannel with a hood, and if it is very cold, put over its head and mittens for its hands.

If possible have your baby sleep in a room where the temperature is as low as 68° at night, and if you cannot do this, be careful to keep the draft from blowing on the baby.

For the indoor bedding there should be a quilted dry over the mattress, and a sheet, and a blanket for the child and one good warm blanket, but all over the whole should be sufficient in a room which grows as cold as 68° at night; provided these should last the baby until it is cold enough to be put into his dress. If you feel that you cannot go to this expense get half the number, as it only takes a few minutes to wash them out every day.

Laurel, cotton and muslin all suit well to a baby's health and comfort—indeed it is very discomforting to a baby to find no matter how much they please the mother's vanity.

For the baby's clothing, use the dainty bit of wearing apparel, crocheted or knitted, and a few extra warm baby when it needs it a little extra warmth.

Remember, your baby is sleeping too cover with two many blankets. If you think it is too warm, put on a hot water bottle or heated brick in the bed.

by the rules of the House and reserve his discussion of the proposals until the postponed recess of the day.

When the Liberal leader spoke from Mr. Borden's bill was given its first reading without further delay. The second reading will be moved for Tuesday, when Sir Wilfrid will speak.

THE CZAREVICH

Will Completely Recover.
Says Latest Report.

London, Dec. 6.—The Morning Post gives extraordinary prominence to the good health of the Czar Nicholas, St. Petersburg correspondent, printing it immediately beneath its Court Circular:

"I am enabled to give the following information from a well-informed source as to the health of the Czar, that while groundless rumors are again being circulated: there is no trace of tuberculosis."

Boxes Containing Lead Missing on Return.

London, Dec. 5.—There was remarkable development to-day in the investigation into the robbery of \$50,000 worth of sovereigns contained in two cases of a consignment of one million shipped by the Bank of England to the Credit Lyonnais at Alexandria, Egypt, about three weeks ago. The two cases of the consignment which were found to contain lead instead of gold on their arrival at Alexandria were sent back to England for expert examination. No precautions were taken to guard these two cases on their way back, but the police have been ordered to make no trace of them can be discovered. The continental police believe that they were certainly intended to be used in the plan which was planned and carried out on the original robbery.

The police now anticipate here to ascertain whether the original robbery was

THIELMAN HED

crises. The official statement of a youth age told the exact truth. The disease is an unusual one, and the experts believed before they agreed that the true nature of it is technically known as hormonal retroproliferation. The blood test was a completely satisfactory. The great loss of blood and consequent weakness makes the patient very susceptible to colds of time.

"My informant" as the Catholic rectory and found him in high spirits and as lively as usual. The only notable thing about his face, caused by the loss of blood."

For Christmas Beef.**

JAPANESE CABINET THIRDS.
Boul. Cora, Dec. 6.—Governor-General Lord Elphinstone has been asked in regard to the Japanese Cabinet crisis. For the present he declined to give any opinion, but he said that the impression prevails here that only an abatement for a few days of the flood of pledges of the support of the Conservative party in the East, would induce the Japanese Cabinet to attempt to resign.

NOVA SCOTIAN DIES LIFE.
Digby, Me., Dec. 5.—Walter Lewis

Chicago, Dec. 5.—Glenearlock, the big American, here declared the champion of the 1912 International Live Stock Exposition at the Chicago Stock Yards, today sold at a live pound, on the hoof, for \$142 pounds of steer—in the Top of the Fair.

Glenearlock was reared by J. R. McGregor, a miller, near St. John's, Canada. The grand champion will probably be slaughtered here.

The grand champion returned last night from the fair at the Chicago Stock Yards.

force of men, and Mayor Wilson was told that it unlikely that the militia would be called out.

It is stated unofficially to-day that the Government will not send more deputations to the miners to arrange terms for a new agreement, but that it will not be for the trouble on Monday.

FEDERAL SQUAD TROUBLE
London, Ont., Dec. 6.—The Board of Education at a meeting this afternoon discussed the possibility of sending a squad of men to the strike of the teachers, and at the conclusion of the meeting the board adjourned.

committed suicide by hanging on the form of the American Land Company in the city of New York. His body came from Nova Scotia, where his people live. He was suspected of filicide and was the cause of his act.

11

NOT CASE FOR MUCH LENIENCY

Bogus Cheques for 'Drink Money the Game. TWO DUNDAS CASES

John Phillips' Loving Jag
Got Him Into Trouble.

William Cummins, of Dundas, made a peculiar mistake at the Terminal Station last night. He went down stairs to the shoe shine parlor, and seeing a man there with overalls, asked him to shine his shoes. The man objected, for he was Alexander Marshall, the station constable. Cummins had a few drinks in him, and got noisy. He landed in the cells, charged with being drunk and disturbing the peace. He was fined \$15 this morning in the police court.

Albert Ros, also of Dundas, was sent to jail for the month for receiving money by false pretences. He pleaded guilty to passing a worthless cheque on Charles Neesham and to obtaining \$300 on the same. Neesham did not wish to press the charge and several Dundas residents pleaded with the magistrate to give defendant another chance. He had had several chances, the magistrate said, and he could not see his way clear to give him another. Ros was sent to jail for the month.

Mr. Marthe Black, 274 Catherine street north, who was arrested yesterday afternoon by Constable Barville on a charge of procuring young girls for immoral purposes, came up for trial this morning, but was remanded one week. When spoken to after the court about the case Chief Smith stated that the police were going to make an effort to arrest John Black, husband of the woman, and to proceed against him on a similar charge. It is not likely that the charge will be continued against the woman. The arrest came as the result of an investigation into the case of Miss Frances Stevens leaving the residence of Rev. Beverly Ketchum, where she had been employed as a domestic for some months past. Deputy Chief Whistler and several other officers made an effort to get the girl to return, but were unable. Upon investigation the deputy chief came across the conditions which caused the arrest of Mrs. Black. Her husband is said to be a gambler, and a warrant has been issued for his arrest.

Bernard Kennedy was committed for trial on a charge of theft, brought against him by William Kennedy, who claims that he stole a number of tools belonging to him. The tools were those of a stone mason and were recovered in a second-hand store, the owner of which was this morning committed to jail for having sold them. He elected to be tried at the higher court, and no date was fixed.

John Phillips had a lovely jag on last night and landed in the cells, and this morning he was fined \$10 for being drunk and disturbing the peace.

Thomas Johnston, York street, was found guilty and remanded for a charge of stealing an overcoat from the Rev. John Smith. The coat was taken in his car on Saturday, and did not come where his coat went. Detective Chief Smith traced the coat to a second-hand store on York street, and the owner of the store identified Johnston as the man who sold it.

Fred Lyons, 100 Caroline street north, was fined \$5 for neglecting to send his child to school. His wife appeared for him and said that the boy had been sick because his uncle was dead. She said that it was an act of respect to her uncle, but the court said that it was not a sufficient excuse.

The Warner, John Leonard and John Smith were fined \$10 for being drunk.
